

K-LOVE is my favorite radio station. It is a wonderful station that plays music that uplifts and enlightens me. Not only is the music inspiring but the radio personalities, news, artist spotlights and life tips are as well. K-LOVE is the only radio station in my area that plays music without swear words and sexual connotation, and other things that are offensive to me and others in the community. A local Christian station could not support itself financially as KLOVE does.
